## WHO WE ARE:

Established in 1947, Leslie R. Tipping Ltd and its associate companies have grown to become one of the leading suppliers to the funeral trade in the UK. Three generations of Tipping ownership have seen the business transform from a home-based local supplier to a nationwide provider of funeral requisites.

Under the more recent stewardship of owner James Tipping, the company has enjoyed significant growth and expansion, operating from three sites, with 35,000 square foot of manufacturing and warehousing facilities supported by 60 employees.

Leslie R. Tipping Ltd, Hulme Limited and HO Rawcliffe Limited are ideally structured to service funeral directors' requirements across a wide range of products. Adopting a more sophisticated approach to stock holdings using management information makes sure the customer gets the best possible service.

Undercoat is an opaque cosmetic meant to cover discoloured areas without creating a painted effect.

It should be used over discolourations caused by injury, ecchymosis, intravenous punctures, burns, as well as over waxed areas and areas of extensive restorative work.

Even in cases where bleaching chemicals cannot remove a stain, Undercoat will cover it.

The cosmetic will not crack or peel after drying when applied in thin layers, nor will it lift off when touched.

In fact, it is intended that further cosmetics be applied over Undercoat.

Undercoat will create no dehydration problems, as some spray cosmetics will. Available in 3 colours: Light, Medium and Dark.
